SwissStop bicycle brake pads a product of Rex Articoli Tecnici SA

SwissStop bicycle brake pads are a product of Rex Articoli Tecnici SA of Mendrisio, Switzerland. Founded in 1935, the company started to develop and manufacture bicycle brake pads in the 1950s, becoming the original equipment supplier for several of the leading brake manufacturers of that time. By the 1970s annual production reached over 20 million pieces per year. SwissStop was created in the 1990s and with this brand Rex continues its decades long tradition of research, development and production in the bicycle brake pad industry. Rex Articoli Tecnici also produces a wide range of technical items of rubber, thermoplastics and elastic materials.

Flash *EVO*

Shim | SRAM compatible caliper insert

- recommended for Triathlon, TT, Cross and other bikes with integrated brakes and limited space for 'standard' brake pads
- recommended for all wide aero rims - lower profile pad means better caliper spring position and improved caliper function
- the four grooves help to increase performance in wet conditions by 10%
- available in the proven BXP and Black Prince compounds
- BR-M9010 compatible

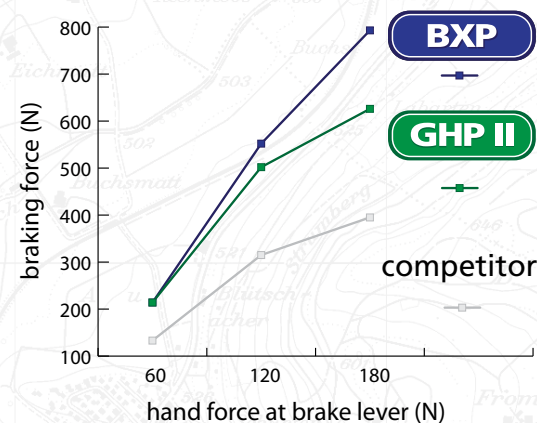

BXP

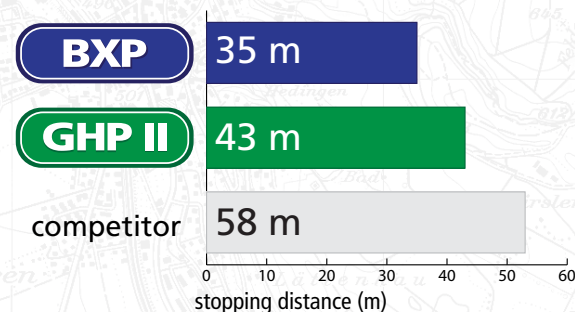

BLACK PRINCE

Improved modulation and shorter stopping distances with SwissStop BXP and Black Prince compounds

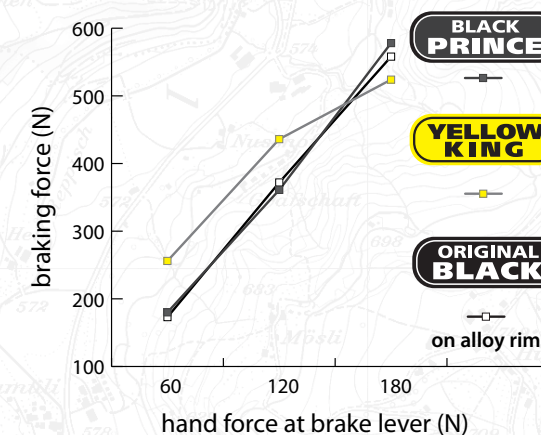

lever force vs. braking force

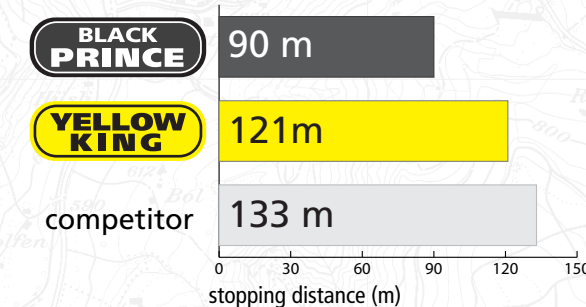

stopping distance, 60 km/h - 0, dry conditions

lever force vs. braking force

stopping distance, 60 km/h - 0, wet conditions

Disc Brake Pads

organic compound

Versatile organic Kevlar/brass/ceramic compound delivers great performance and durability with quiet operation.

Disc Brake Silencer

SwissStop original product

After using it the first time I thought, "That's just a coincidence"
After the second time I thought, "Pretty cool".
After the third time I thought, "It really works. This is great!"

- Alexander Giegerich, www.fahrradhof-grosswallstadt.de

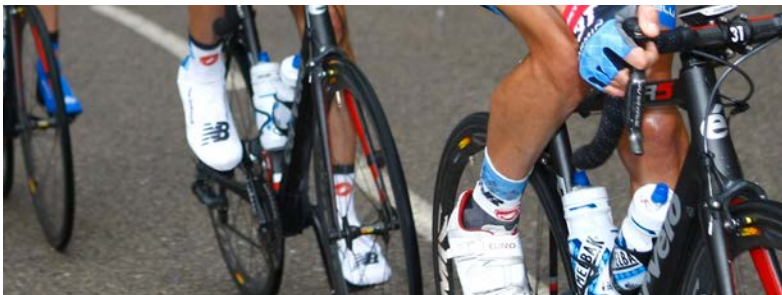

- prevents and reduces brake squealing, without impairing the braking effect
- simultaneously dissipates heat
- prevents non-uniform wear
- eliminates vibration on braking

Press

“These things stop on a dime.”

- Tyler Benedict, bikerumor.com 1/15/2013

product reviewed: **FlashPro Black Prince**

“We’ve tried every brand, but haven’t found one that works better than SwissStop.”

- Joe Lindsey, bicycling.com

product reviewed: **FlashPro Yellow King**

“For aluminum rims, SwissStop’s latest BXP model is nearly impossible to beat and its slightly harder composition can improve lever feel, too. SwissStop is also my go-to choice for carbon rims with its new Black Prince compound, which delivers an impressive amount of bite and great control.”

- James Huang, bikeradar.com 8/13/2013
